

Responsible Business Communication

Communicate with clients through their channel of choice while governing and retaining communication data for compliance and productivity

Client Satisfaction

Deliver faster and superior client service through modern channels

Compliance

Ensure compliance with industry regulations and enterprise policies

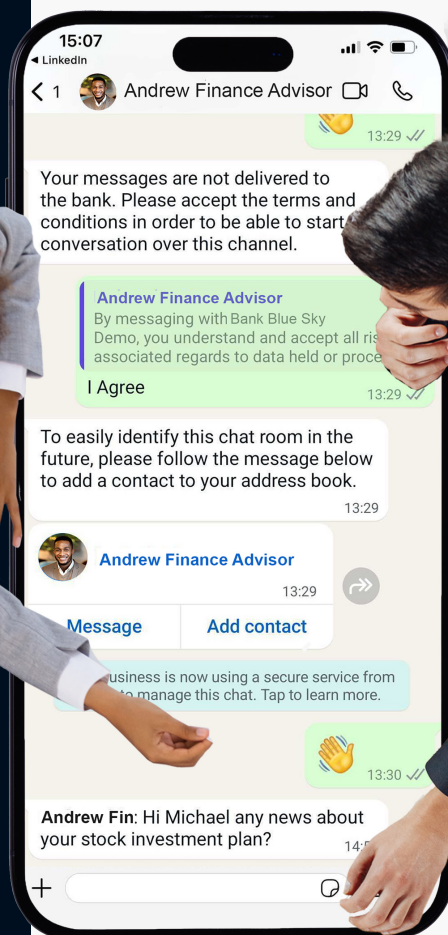

Data Ownership

Maintain and protect enterprise data shared on digital channels

Productivity

Boost productivity through communication intelligence

What we do

The LeapXpert Communications Platform empowers enterprise employees to engage in client conversations across consumer messaging channels. It ensures regulatory compliance, enterprise governance, and security, while boosting employee productivity and decision-making through Communication Intelligence. The Platform supports consumer messaging platforms, including WhatsApp, iMessage, SMS, Telegram, WeChat, Signal, and LINE, and collaboration platforms such as Microsoft Teams, WeCom, and Slack.

Hundreds of enterprise customers globally

Hundreds of thousands of daily active users

More than 50 countries served
