

Governed & Compliant WhatsApp Messaging via Microsoft Teams

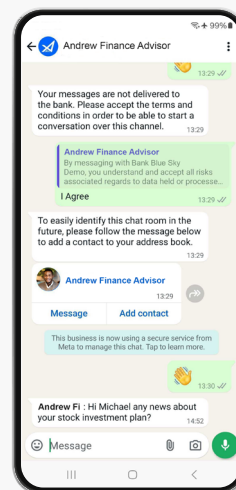

Boost employee productivity and client satisfaction while maintaining full enterprise data governance and regulatory compliance.

Employee on MS Teams
Native Teams chat interface

LeapXpert dashboard
Centralized data capture

Client on WhatsApp
Messaging compliance with governance policies

Benefits

Enhance Productivity

Eliminate app-switching: Communicate internally and externally from one hub - Microsoft Teams.

Deploy with Confidence

LeapXpert, a Meta Business Solution Provider, serves hundreds of enterprise customers across 47 countries with MACC-compatible SaaS solutions.

Maintain Compliance and Governance

Capture, monitor, and archive all WhatsApp communications to meet regulatory recordkeeping requirements and internal governance policies.

Core capabilities

1 Unified and Seamless Communication

Communicate externally via WhatsApp directly from the native Teams chat interface - both mobile and desktop. This ensures seamless communication without switching between multiple tabs and applications. Support individual, group, and broadcast conversations. Compatible with all devices - corporate and personal. Easily import contacts from Outlook and mobile device phonebooks.

2 Comprehensive Compliance Recording

Automatically capture, monitor, and archive all WhatsApp communications, including texts, files, images, voice notes, reactions, emojis, forwarded messages, and others. Integrate and export business conversation trails to your existing archiving system to meet recordkeeping requirements from the SEC, FINRA, ESMA, and other regulators.

3 Advanced Management, Governance and Security Controls

Enjoy a rich management portal with admin-led or self-user provisioning, real-time monitoring and analytics. Support built-in data leakage prevention (DLP) in real time, role-based access controls (RBAC), data encryption at rest and in transit, bring-your-own-key, single sign on (SSO), and other measures, to protect sensitive information and maintain data ownership.

4 Enterprise-Grade Solution

Benefit from LeapXpert's platform high availability and security with out-of-the box integrations with governance, archiving, and Microsoft solutions, including Microsoft 365 Entra ID, Teams SSO, Purview DLP, and other 365 services. Select from flexible Azure-hosted SaaS deployment models and robust SLA terms to meet your unique needs.

About LeapXpert

LeapXpert, the responsible business communication pioneer, provides enterprises peace of mind through compliant and secure communication solutions. The LeapXpert Communications Platform enables compliant, governed, and secure communication between enterprise employees and their clients across consumer messaging channels, while leveraging Communication Intelligence to enhance front-office employee productivity and decision-making. LeapXpert, a Gartner Cool Vendor, is headquartered in New York, with offices in London, Tel Aviv, and Asia. Hundreds of enterprise customers, with hundreds of thousands of users in more than 45 countries, depend on LeapXpert daily for Digital Communications Governance and Archiving (DCCA) solutions.
